Jon Johnson
Unknown

My name is Yon Yohnson,
I come from Wisconsin,
I work in a lumber mill there.
When I walk down the street,
The people I meet say, (Pause)
Hey!! What's your name?
And...I...say.....

Repeat faster and louder each time,
until group can not keep up, then
loudly answer "None of your business"

John Jacob Jingleheimerschnitz
Unknown

John Jacob Jingleheimerschnitz,
His name is my name, too.
Whenever I go out,
The people always shout,
"There goes (SHOUT)
John Jacob Jingleheimerschnitz!!,
(Quiet down, quieter with each syllable)
Nah nah nah nah nah nah."

Repeat, getting softer for each verse
except for the shouted name.

Squad shoots and drags prisoner off, following after Commander

Scouting Directions

Scoutmaster's Minute

Tonight we have been learning how to find directions on a map and to use a compass to stay on course. By now I hope most of you can orient a map and can use a map and compass to travel through unknown country.

In Scouting, we have another kind of "map and compass". They are the Scout Oath, Law, Motto and Slogan. We give these to you and train you in their use because your future is also unknown territory. They will be excellent guides for traveling through life.

Whenever you are wondering what is the right path, consult those "maps and compasses". They don't guide you if you don't use them. They won't always provide an easy answer. Sometimes you will have to think through your decision. But it will be easier if you ask yourself, "What does the Scout Oath and Law require?"

Chances are the Oath and Law will help to show you the right path to follow and will give you the bravery to follow it.

The North Star

Scoutmaster's Minute

It is easy to find your way in the full light of day, but when the darkness of night settles in, it is much more difficult.

We have been learning how to find Polaris, the North Star, because we know it will help us find our way in the wilderness. For centuries man has known that the North Star is fixed in the heavens, it has been used as a navigational aid for sailors ever since the first adventurers sailed away from the sight of land.

The North Star is still used by mariners and explorers. So by learning how to find it we are joining a very long line of adventurers.

There are "North Stars" in our everyday lives, too. One of them is our conscience. If we find and listen to our conscience, we can be sure to steer our lives in the right direction.

And let's not forget about the Scout Oath and Law. They are North Stars because they give us excellent guidance in how to behave and reminders in what we owe to God, country, our fellow human beings and to ourselves.

When you are lost at night, look for the North Star. The rest of the time steer your life with those other North Stars - your conscience and the Scout Oath and Law.
